

Botanical walk Ubud

Ubud - Bali

Learn all about Ubud's varied flora and fauna on an educational botanical walk.

Your host has a Master's Degree in the field of Biological Sciences and also happens to be a farmer. Walk through the beautiful outlying districts of Ubud and gain excellent insight into the daily rural life of Bali. The easy 90-minute walk will also take you through rice-fields where you can see how Balinese farmers cultivate the land, or plant rice – depending on the season. After the walk there will be a 90-minute hands-on workshop where you can make your own beauty products with natural ingredients, such as sunscreen, a facemask, or a healthy scrub. The best part is you can take them home with you! You will also enjoy lunch in a unique location surrounded by nature.
