

## Cheow Lan Lake by Longtail

### Khao Sok

**Board a longtail, glide effortlessly across the waters of Cheow Lan Lake and soak in the views of the magnificent limestone cliffs.**

Transfer from your lodge to the pier (approx. 1 hour) and hop on board your boat. Spend time at the pristine man made lake, a result of the construction of the nearby Ratchaphapha dam. Swim, relax, rent a kayak and paddle to the nearby inlets or trek trails around the lake's peripheries to discover hidden waterfalls and caves. Tuck into a delicious Thai lunch featuring freshly caught fish, southern curries, flavorful local vegetables and fresh fruit at the floating restaurant. In due time, return to the pier and your lodge.
