

Exploring Downtown Yangon by Local Transport

Yangon

Mingle with the locals and use public transportation - taxi, train, ferry and trishaw - to see lesser-known parts of this vibrant city.

Depart by taxi from your hotel, and head to the city's main station, where you climb aboard the Yangon Circular Railway for a fun ride passing through a number of city districts. Then take the ferry across the Yangon River to Dala Township, a still largely rural and undeveloped part of the city on the south side of the river, opposite downtown Yangon. From here continue on foot passing through lively markets, trying local snacks, chatting with locals and taking in the rural sights of this picturesque township community. From Dala take the ferry back across the river and return to your hotel by taxi.
