

Personalized Shopping Experience

Yangon

Shopping around antique shops & bazaars and enjoy a foot massage by local masseuses after a delicious lunch with organic foods.

Whether it's a longyi (local sarong), a silk shirt, old books, antiques, paintings or even a trishaw, your shopping specialist knows just where to find it. Depending on what you prefer, this fun shopping excursion can either start or end with a delicious lunch in the company of a local entrepreneur, who grows their own organic vegetables and produces locally made 'French' cheeses, hams and other specially prepared foods. After your shopping bonanza you can soothe your aching feet with a foot massage, given by visually impaired and hard of hearing masseuses, trained by a local charity.
