

River Raft Adventure

Khao Sok

Soak in the views along the slow meandering Khao Sok River, an ancient trading route, as you journey by bamboo raft.

Sit back and watch as your guide manoeuvres their bamboo rafts using long poles. Appreciate how the rafts were used to ferry goods from the west to east coasts and discover how many artifacts have been found along the waterways. Stop for a short hike through the jungle and watch how water is boiled in bamboo on an open fire. Enjoy a refreshing hot brew sweetened by the bamboo and wood smoke, before continuing on your way. Towards the end of the journey there's a chance to try your hand at punting the raft yourself – a skill that's not as easy as it looks!
