

## Sunrise Trek to Mount Batur

### Kintamani - Bali

**Trek to the summit of Bali's second highest sacred active volcano and be rewarded with spectacular sunrise views across Bali and beyond.**

Set off well before dawn for this challenging trek that takes you through forests, across lava slopes and over rocky terrain – high up, into the clouds. Adventure seekers will be rewarded reaching the summit (1717 meters, 5633 feet above sea level) of this still active volcano before sunrise for stunning views of Bali, the neighboring island of Lombok and the surrounding crater and lake. During the almost two hours trek, guided by the light from your flashlight, you will traverse across uneven terrain and volcanic rock. Relax and soak in the views while breakfast is prepared at the summit! For those with the energy, take a hike around the rim of the caldera.
